

Giuseppe Rizzo

Curriculum Vitae

Short Bio

Dr. Giuseppe Rizzo is Senior Data Scientist at the Innovation Development Area of ISMB. Giuseppe is currently PI of ISMB in PasTime (EIT Digital, no. 17164) and has participated in successful international projects such as 3cixty (PI of ISMB), FREME, LinkedTV, Apps4EU, EventMedia and OpenSem. He is the main architect and co-investigator of the NERD framework.

Research interest

Natural Language Processing, Data Semantics, Knowledge Extraction, Knowledge Engineering, Machine Learning

Attracted Funding

- 2017 PasTime 105.3K€(Principal Investigator of ISMB)
- 2016 3cixty 50K€(subcontracting, Principal Investigator of ISMB)

Participation in funded projects

- 2017 **PasTime** - <http://pas-time.org>, *Offers personalized bundles to city visitors, based on local offering and deep knowledge of visitor preferences..*
- 2015-2017 **FREME** - <http://www.freme-project.eu>, *Aiming to validating integration of going multilingual and semantic technologies for digital content enrichment.*
- 2014-2016 **3cixty** - <http://www.3cixty.com>, *Exploring new opportunities to enable city visitors to exploit the transportation, business, cultural, and touristic point of interests offered by a city more fully and in a more personally and environmentally way.*
- 2013-2015 **Apps4Europe** - <http://www.appsforeurope.eu>, *Turning data into business.*
- 2013-2014 **SMAT-F2**, *Italian project, the acronym stands for "Advanced Territory Monitoring System" and the project aims at annotating geographic extents using whereabouts of social media users.*
- 2012-2014 **LinkedTV** - <http://www.linkedtv.eu>, *Television linked to the Web is an integrated and practical approach towards experiencing Networked Media in the Future Internet.*

- 2012 **OpenSEM** - <http://www.opensem.eu>, *The open innovation platform for semantic media. In the field of services for multimedia, the best performing research results emerging from academia exploit a Triple Synergy framework, a state-of-the-art paradigm that combines user-based collaborative tagging, social network structures, and multimedia content analysis.*
- 2011 **EventMedia** - <http://eventmedia.eurecom.fr>, *Event-based Annotation and Exploration of Media within the PetaMedia, P2P Tagged Media FP7 Network of Excellence. In this project we intend to develop an event-based approach for user who share events through different media platforms.*
- 2010 **EVPSI** - <http://www.evpsi.org>, *Extracting Value from Public Sector Information. Key elements of this vision are: Web, Open Government Data, Transparency.*

Appointments held

- 2015-ongoing Senior Data Scientist at ISMB, Turin, Italy.
 - 2014–2015 Permanent Researcher Fellow at EURECOM, Biot, France.
 - 2013–2014 Research Assistant at Università di Torino, Turin, Italy.
 - 2013–2014 Research Associate at EURECOM, Biot, France.
 - 2012–2013 Postdoctoral Research Fellow at EURECOM, Biot, France.
 - 2011 Visiting PhD Student at EURECOM, Biot, France.
 - 2008 Research Assistant at Politecnico di Torino, Turin, Italy.
 - 2006–2007 Assistant Network Administrator at Collegio Einaudi, Turin, Italy
 - 2005–2007 Instructor of the course “Seniores On-Line”, co-organized by Collegio Einaudi and 3ndy (part of Uni3, University of Turin for elderly people, where I taught the baselines of the Internet and the Web.
- before 2005 Worked on several ML/Web-related projects (mostly C#/Java/python/HTML/JS) at university and internships. Details available upon request.

Education

- 2009–2012 **PhD**, *Politecnico di Torino*, Turin, Italy.
Web, Linked Data, and Information Extraction
- 2005–2008 **MSc**, *Politecnico di Torino*, Turin, Italy.
Web and Networking
- 2002–2005 **BSc**, *Politecnico di Torino*, Turin, Italy.

PhD Thesis

- Title *Knowledge extraction from unstructured data and classification through distributed ontologies*
- Supervisor Angelo Raffaele Meo
- Mentor Raphaël Troncy
- Description This thesis proposed a framework for extracting knowledge from unstructured information and classifying it via distributed ontologies.

Award and Scholarship

- 2016 **1st ranked system** Semantic Sentiment Analysis Challenge at ESWC 2016
- 2015 **1st ranked system** Semantic Web Challenge 2015
- 2015 **1st ranked system** Open Knowledge Extraction challenge at ESWC 2015
- 2016 **3rd ranked system** (WWW'13) Concept Extraction Challenge, 3rd International Workshop on Making Sense of Microposts (#MSM 2013)
- 2011 **Best Concept** for our submission about *Confomaton* at the 2nd Linked Data-a-thon challenge (ISWC'11)
- 2009 **3 year PhD scholarship** from the Italian Ministry of University and Research

Open source software and public services

- 2013 **geosummlly** - <https://github.com/giusepperizzo/geosummlly>, *Geographic summaries from Crowdsourced Data*.
(ongoing) Is as a framework that creates geographic summaries using the whereabouts of Foursquare users.
- 2012 **MediaFinder** - <http://mediafinder.eurecom.fr>, *What fresh media are you looking for?*.
(ongoing) Is a web framework which creates visual illustrations from media items shared by the crowd on social platforms.
- 2011 **NERD** - <http://nerd.eurecom.fr>, *Named Entity Recognition and Disambiguation framework*.
(ongoing) Is a web framework which unifies and combined the annotation results of numerous named entity extractors using the NERD ontology.
